**Presented By Graeme Miller, Assistant Director,
US DOE Midwest Combined Heat and Power
Technical Assistance Partnership**

Graeme Miller is an Energy Policy Analyst with the Energy Resources Center at the University of Illinois at Chicago (UIC) where he also serves as the assistant director of the US DOE Midwest Combined Heat and Power Technical Assistance Partnership. In his current research Mr. Miller focuses on identifying, quantifying, and addressing barriers to clean distributed generation technologies such as combined heat and power (CHP), waste heat to power (WHP), district energy (DE), and energy efficiency (EE) installations. Mr. Miller specializes in utility rate policy, focusing on how utility rates affect combined heat and power deployment. Mr. Miller has submitted testimony in utility rate cases and efficiency filings before the the Iowa Utility Board, the Missouri Public Service Commission, the Minnesota Public Utility Commission, the Indiana Utility Regulatory Commission. Mr. Miller has also presented on CHP topics before the Indiana State Senate.
