6:00-6:30 pm: Dinner

6:30-6:45 pm: MCA Welcome and Introductions

6:45-7:00 pm: Where's the \$\$\$ for CHP Projects? Midwest Utility Incentives for CHP Projects

7:00-8:00 pm: Packaged CHP System eCatalog: Reducing Risk and Increasing Market Uptake

FEATURING

Join the Midwest Cogeneration Association (MCA) for a networking dinner and presentation meeting at the Westwood Tavern in Schaumburg, Illinois as featured speakers will present CHP incentive offerings available from Midwest utilities and a new U.S. DOE developed eCatalog for Packaged CHP systems.

Panel: Where's the \$\$\$ for CHP Projects? Midwest Utility Incentives for CHP Projects

- Graeme Miller, Assistant Director, US DOE Midwest CHP Technical Assistance Partnership
- Milos Stefanovich, Senior Energy Efficiency Program Manager, ComEd Energy Efficiency Program

Combined heat and power (CHP) is recognized as an energy efficiency solution in Midwest state energy efficiency portfolio standards. Several utilities have developed CHP programs and are offering incentives towards CHP feasibility studies and incentives to offset capital costs of new and upgraded CHP systems. The presenters on this panel will walk the audience through the Midwest Region sharing what programs and incentives are available in each of the Midwest states.

Presentation: DOE Packaged CHP system eCatalog: Reducing Risk and Increasing Market Uptake

- Presenter: Richard S. Sweetser, Senior Adviser to U.S. Department of Energy CHP Deployment Program

Westwood Tavern
