

## UPCOMING WEBINARS

### **Renewable Fuel Standard (RFS), RINs (Renewable Identification Numbers) and Midwest CHP**

**Thursday, February 21, 2019, 12 pm Central**

The webinar will provide a high level overview of RFS, a RINs 101; brief history of federal legislation and policy, how it changed since inception and will provide a view on future direction. Introduce and define the nomenclature / acronyms. Explain the economic value chain associated with RINs and key stakeholders. Briefly discuss compliance complexity; and lastly will attempt to offer a view on how RINs and Midwest CHP integrate.

#### **Presented By Michael Archey, President, GTM Strategies**

Mike holds a BS in Finance from Boston College, MBA from Northwestern's Kellogg School of Management and is a 21 year veteran / alumni of GE. He held positions of increasing responsibilities in Finance, Marketing, Sales and Commercial / Origination leadership. He started a Commercial Strategy, Finance and Deal Structuring firm. The firm's initial target market was transportation sector with focus on low carbon alternative fuel transportation. The firm has expanded sector focus to include low carbon and distributive energy production as power and transportation sectors continue to merge.
