## Net Zero CHP: How Hydrogen, a Future Fuel, is Being Utilized Today

Thursday, March 17, 2022 -11:00AM Central Time

[Click Here to Register](#)

Green Hydrogen: How the future fuel is being utilized in Net-Zero CHP projects today. Lots of talk about Hydrogen these days. Come learn where, how this fuel is being used in Net-Zero energy systems around the world, and how energy users in the Midwest can apply these lessons learned to their own energy and sustainability strategies.
